

JUBILEE RIVER SWIM – SPECTATOR GUIDE 2018

ON FOOT OR BY BIKE -

The Jubilee River Swim is an extremely spectator friendly event, with a well maintained flat cycleway along its length making it really easy to stay close to the action. We'd really love to encourage as many spectators as possible to follow as much of the swim as they can by walking or cycling along the route.

You can directly follow the Jubilee River for all but a few hundred yards; this short stretch is in the first mile. Once the towpath hits the A4, turn left, carefully cross the A4 at the traffic lights and turn right along Amerden Lane and head under the railway bridge. You'll rejoin the Jubilee River after a few hundred yards; cross the bridge on the right to follow the towpath. Follow signs for cycle route 61 and you can't go wrong!

BY CAR -

Many spectators will choose to leapfrog along the route to watch their swimmers, and there are numerous points of access and suitable car parking locations reasonably adjacent to the water that allow this.

However, we would like to suggest that spectators move along the route with caution and consideration of others. Many of the access points and parking areas are very likely to be used on the day by the event team, including the medical support team and race organisers; obviously along with other recreational users of these areas and local residents.

With this in mind, we would appreciate spectators fully taking on board our recommendations as to where you park, so please follow the series of maps below as they'll guide you along the route.

Park along Mill Lane (SL6 0AA), be aware that there is a new housing development along Mill Lane, so please be respectful of our neighbours. You can park along most of the length of Mill Lane. When you're leaving to head towards Leg 2 after the start, please head SOUTH along Mill Lane, joining the new road, Jubilee Lane, towards to the A4.

Getting to the end of Leg 1/start of Leg 2 – turn left on the A4 towards Slough and turn right from the A4 at the 2nd set of traffic lights into Marsh

Lane. We politely ask that you don't park at the river car park (SL6 0DH) as our safety team need access throughout the swim. Please park instead along Old Marsh Lane, further along on the right hand side.

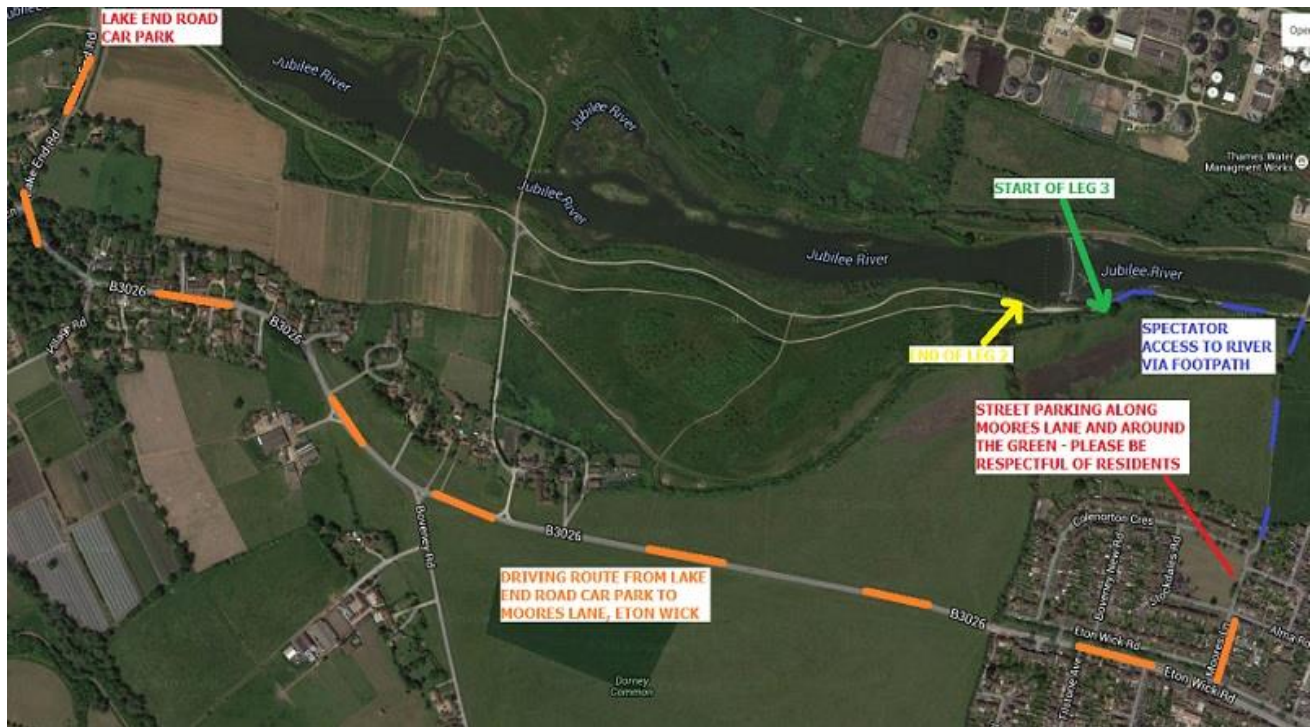

Once parked it's a short walk back along Marsh Lane to the river.

For viewing leg 2 – we'd suggest you turn right into Harcourt Road and park; then take the footpath across the field to the river. The car park on Lake End Road (SL4 6QT) is likely to be very busy.

Getting to the end of leg 2/start of leg 3 – Once over the second cattle grid and Dorney Common, look out for Moores Lane (SL4 6JY) on the left. Park considerately around the green at the end. In the right hand corner of the green is a footpath to the river. The start of Leg 3 is a 5 minute walk away

Getting to the end of leg 3/start of leg 4 – carry on through Eton Wick to Eton College, and turn left towards Slough. Carry on over the first roundabout to the 2nd (larger) roundabout. There's a car park large enough for approx. 20 cars off the far left corner of the roundabout.

Back to the finish at TVAC (SL4 6HN) – turn around on the roundabout, heading back towards Eton, and turn left at the next roundabout, signed for TVAC and Datchet. The finish is immediately on the right as you enter the car park. Please note – we don't have use of the TVAC car park for this year; we suggest parking 600m away on Castle Avenue.

Our advice is for spectators to be creative! By all means, use the event shuttle buses to get to the start and then follow the swim on foot. Perhaps park at the start and follow the course on your bike? If you plan to leapfrog the course by car, please be aware that our event vehicles & medics do require access, so be prepared to park a short distance away and walk. Have a fun day!

REMEMBER....

Wave 1 starts @ 09:00

Wave 2 starts @09:30

Wave 3 starts @10:00

Wave 4 starts @10:30
