

JUBILEE RIVER SWIM – SPECTATOR GUIDE 2019

ON FOOT OR BY BIKE -

The Jubilee River Swim is an extremely spectator friendly event, with a well maintained cycleway/path along the length of the river making it really easy to stay close to the action. We'd really love to encourage as many spectators as possible to follow as much of the swim as they can by walking or cycling along the route.

You can directly follow the Jubilee River for all but a few hundred yards; this short stretch is in the first mile. Once the towpath hits the A4, turn left, carefully cross the A4 at the traffic lights and turn right along Amerden Lane and head under the railway bridge. You'll rejoin the Jubilee River after a few hundred yards; cross the bridge on the right to follow the towpath. Follow signs for cycle route 61 and you can't go wrong...but we will put signage up just in case!

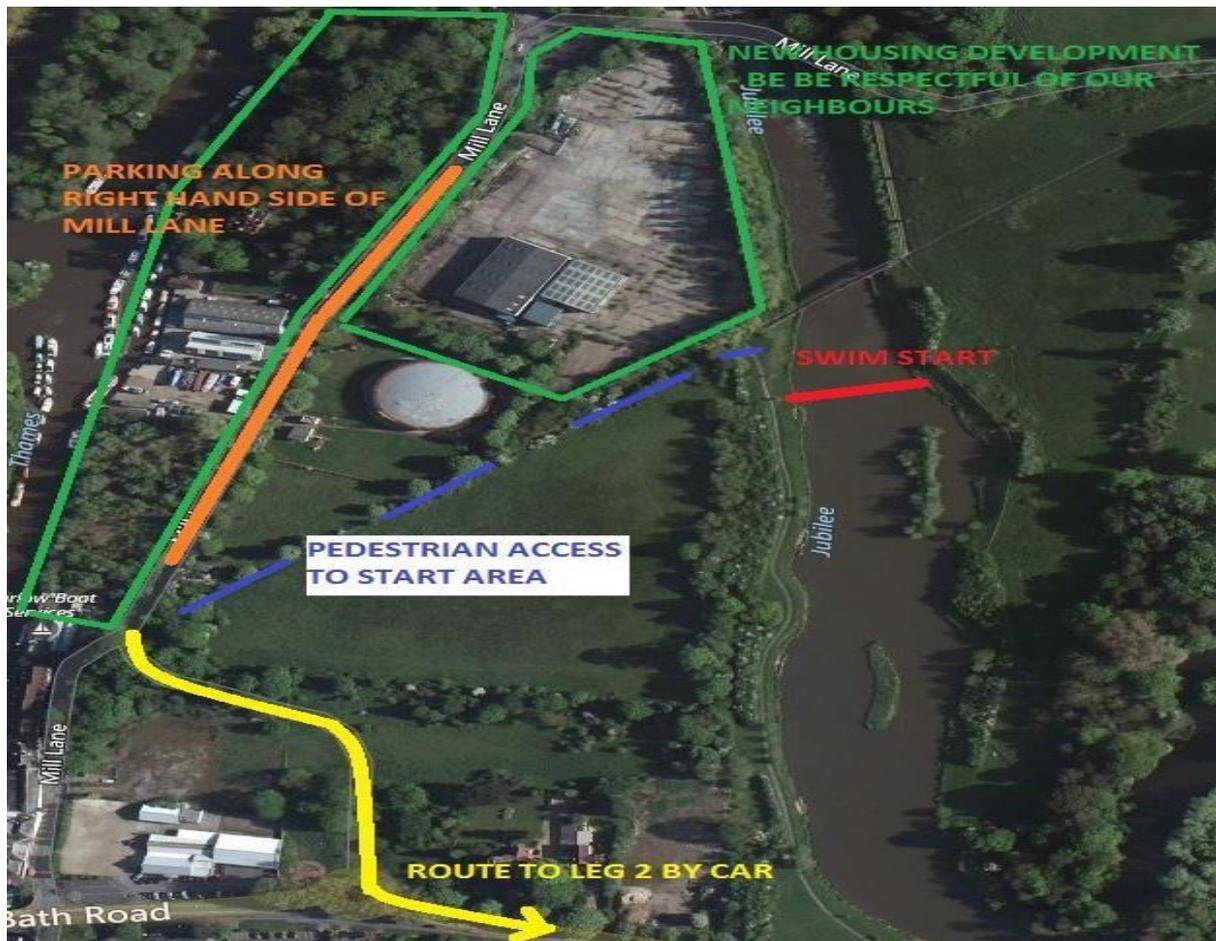

BY CAR -

Some spectators choose to leapfrog along the route to follow their swimmers, and there are numerous points of access and suitable car parking locations reasonably adjacent to the water that make this possible.

However, we would like to request that spectators move along the route with caution and consideration of others as many of the access points and parking areas are very likely to be used on the day by the event team, including the medical support team and race organisers. Additionally there will also be other recreational users and local residents not associated with the swim.

With this in mind, we would appreciate spectators fully taking on board our recommendations as to where you park, so please follow the series of maps below as they'll guide you along the route.

For the swim start area you may find parking along Mill Lane (SL6 0AA) but be aware that there is a large amount of building development work happening along Mill Lane; then walk back along the road and take the footpath to the Jubilee River as per the map below. When you're leaving to head towards Leg 2 after the start, please head SOUTH along Mill Lane and rejoin the A4 Bath Rd..

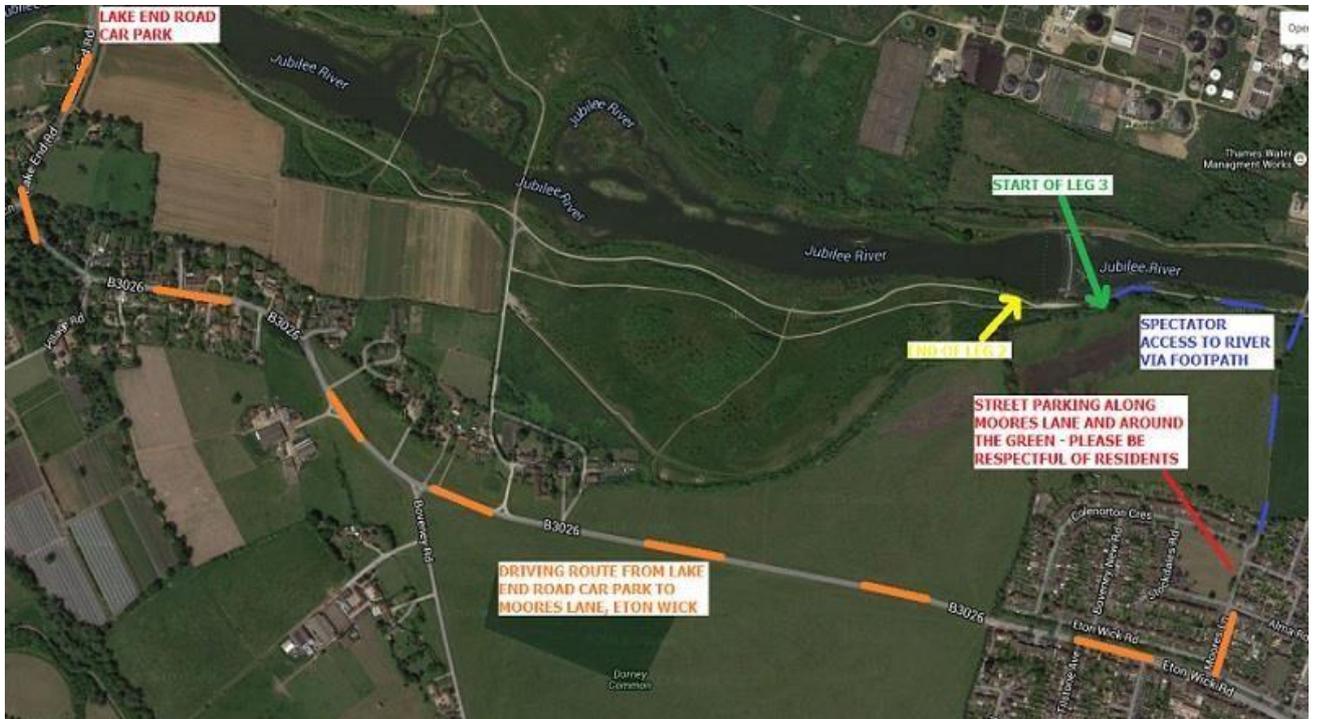

Getting to the end of Leg 1/start of Leg 2 – turn left on the A4 towards Slough and turn right from the A4 at the 2nd set of traffic lights into Marsh Lane. Parking at the river car park (SL6 0DH) will be limited, so please park carefully along Old Marsh Lane slightly further along on the right. Once parked it's a short walk back along Marsh Lane to the river.

For viewing leg 2 – we’d suggest you turn right into Harcourt Road and park; then take the footpath across the field to the river. The car park on Lake End Road (SL4 6QT) is likely to be very busy.

Getting to the end of leg 2/start of leg 3 – Once over the second cattle grid and Dorney Common, look out for Moores Lane (SL4 6JY) on the left. Park considerately around the green at the end. In the right-hand corner of the green is a footpath to the river. The start of Leg 3 is a 5+ minute walk away.

Getting to the end of leg 3/start of leg 4 – carry on through Eton Wick to Eton College, and turn left towards Slough. Carry on over the first roundabout to the 2nd (larger) roundabout. There's a car park large enough for approx. 20 cars off the far-left corner of the roundabout.

Back to the finish at TVAC (SL4 6HN) – turn around on the roundabout, heading back towards Eton, and turn left at the next roundabout, signed for TVAC and Datchet. The finish is immediately on the right as you enter TVAC. **Please note there is no spectator parking at TVAC.**

Our advice is for spectators to be creative! If you have pre-paid tickets for the shuttle buses you will be able to get to the start area and then follow the swim on foot. Perhaps find a place to park at the start and follow the course on your bike? If you plan to leapfrog the course by car, please be aware that our event vehicles & medics do require access, so be prepared to park a short distance away and walk. Have a fun day!

REMEMBER....

Wave 1 start @ 09:00

Wave 2 start @ 09:30

Wave 3 start @ 10:00

Wave 4 start @ 10:30
